### Division of Water Rights

JERRY D. OLDS  
State Engineer/Division Director

June 8, 2007

Dear Sir or Madam:

The State Engineer held a public meeting on March 13, 2007 to discuss the process to develop a groundwater management plan for the Beryl / Enterprise area. Written comments and questions from the meeting were received until May 15, 2007. Responses to these comments and questions are enclosed.

The State Engineer's office is currently reviewing and verifying the electronic water rights database and the hydrologic data. Another public meeting will be held later this summer to present this data and discuss the next step to develop the management plan. If you are unable to attend any of the meetings please visit our web site at:  
<http://www.waterrights.utah.gov/groundwater/ManagementReports/BerylEnt/berylEnterprise.asp>  
All data and information related to the development of the groundwater management plan will be presented on this website.

We appreciate those who submitted comments and welcome input as we move forward with this important effort.

Sincerely,

Jerry D. Olds, P.E.  
State Engineer
